Avoid these type of issues. So inform to the Concern person and rectify the problem as early as possible.

→ Some set of students were very much interested & dedicated to improve their skills which makes them strong in technical aspect. So, we should be able to provide them extra lab sessions apart from regular hours. As we got the grievance from ME Department & they asked for Dassault CAD lab which is skill development lab, we can keep this lab open till 8:30 PM to encourage them in all aspects.

### Resolution:

→ Inform Scavenger to clean properly & use naphthalen balls & room freshener to avoid the bad smell.

→ Concerned faculty need to check & provide regular servicing to avoid these kind of issues.

→ Skill development labs should be opened beyond working hours & Dassault CAD lab to be opened till 8:30 PM to meet student needs.
