Doxygen

Doxygen is a Documentation generator for C++, C, Java, IDL (Corba and Microsoft flavors) and to some extent Objective-C, PHP, C# and D. Being highly portable, it runs on most Unix systems as well as on Windows and Mac OS X.

IEEE Computer Graphics

IEEE CG&A bridges the theory and practice of computer graphics. From specific algorithms to full system implementations, CG&A offers a unique combination of peer-reviewed feature articles and informal departments, including product announcements. Special applications sidebars relate research stories to commercial development. A cover story focuses on creative applications of the technology by an artist or designer.

Operating System(OS) guest Lecture

Dr. Raja Bhukya garu has given a wonderful and interesting seminar on Operating System(OS) for the students. He made it sure that everyone gains some of the knowledge he shared with a interesting way. At the end CSE HOD B.Srinivas rao garu felicitated Bhukya garu with a present.
